# ISH China & CIHE

Part of Messe Frankfurt's globally recognised ISH brand, ISH China & CIHE – China International Trade Fair for Heating, Ventilation, Air-conditioning, Sanitation, Home Comfort & Urban Renewal Equipment and Technology, has evolved alongside the industry for over three decades, since its debut in 1996. Today, it is one of the leading annual exhibitions for the global HVAC and home comfort supply chain, as well as a primary venue for new product launches.

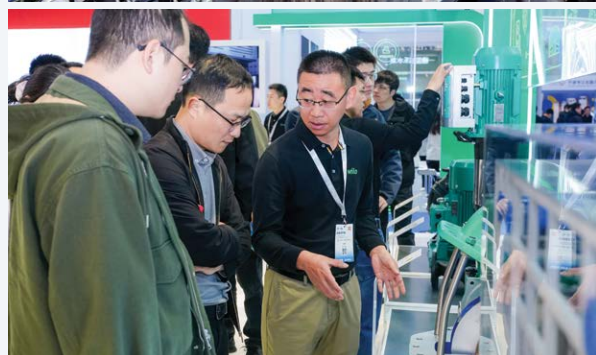

China's "Dual Carbon" strategy and urban renewal policies are creating new demand across the heating industry. With extensive expertise in low-carbon heating, strong global connectivity, and trade-friendly policies, China is well positioned to build significant international partnerships and create new opportunities for green development.

In addition, the country's 15<sup>th</sup> Five-Year Plan (2026 – 2030) promotes "quality homes" through refurbishment and targeted upgrades. It also supports green urban development, improvements to energy-intensive public buildings and infrastructure, the renewal of ageing heating systems, and the wider adoption of metered heating.

Shaped by current policy and industry trends, ISH China & CIHE 2027 will focus on five key sectors: Heating solutions, Energy solutions, Water solutions, Comfort solutions, and Installation & intelligence. The exhibition will bring together end-to-end solutions and urban renewal technologies to drive continued growth across the sector and open new market opportunities for participants.

show highlights

## Figures of 2026

**1,003** exhibitors  
from around the world

**98,000** sqm  
exhibition space

**81** countries  
and regions (visitors)

**76,573**  
professional visitors

Over **100**  
industry events

Nearly **500** global business  
matchmaking sessions

# Innovation and new products across the show floor

## Heating solutions

Boilers, heat pumps, wall-hung boilers, air conditioning, water heaters, electric heaters, floor heating, radiators, fan coil units, smart heating, industrial heating

## Energy solutions

Integrated energy management, renewable energy, energy & heat storage, hydrogen, solar energy, biomass, meters & measurement

## Water solutions

Water pumps, pipes, tubes & fittings, valves, water supply & drainage

## Comfort solutions

Five-constant systems, multi-coupled systems, fresh air, water purification, air purification

## Installation & intelligence

Smart home, sensors & controllers, software & digitisation, tools & fasteners, repair & detection

### Exhibitor feedback

“With its global resources and strong industry following, ISH China & CIHE is Asia's leading platform for the heating supply chain. Over a decade of participation has helped us build lasting client relationships and deliver flagship projects across China, including Tesla's Gigafactory in Shanghai and several heating projects in Xizang and Xinjiang.”

**Mr Zhang Liangliang, General Manager of Commercial Integrated Energy Technology Company, Micoe**

“ISH China & CIHE serves as the premier industry event for showcasing the latest developments in China's heating sector while uniting local and overseas partners from across Europe, Mongolia, Uzbekistan, and beyond. We hope to leverage this platform to expand globally and boost RAETTS' brand visibility.”

**Mr Dennis Wu, Founder & CEO, RAETTS**

“For us, the standout factor – and the reason we keep returning – is the opportunity to meet key buyers in person, which digital channels alone cannot replicate. Having attended ISH shows in both China and Germany for many years, I remain convinced that there is no substitute for ISH when it comes to launching new products and building brand recognition.”

**Mr Nazar Mukhammedov, Business Development Director, Gassero (Türkiye)**

## Leading brands from the previous editions

(Partial list, in alphabetical order)

# Bridging trade opportunities across domestic and global markets

Utilising the global resources of the ISH brand and Messe Frankfurt's digital services infrastructure, the 2026 edition welcomed 76,573 visitors from across 81 countries and regions, including Germany, Italy, Mongolia, Pakistan, Russia, South Korea, Thailand, Türkiye, and Uzbekistan.

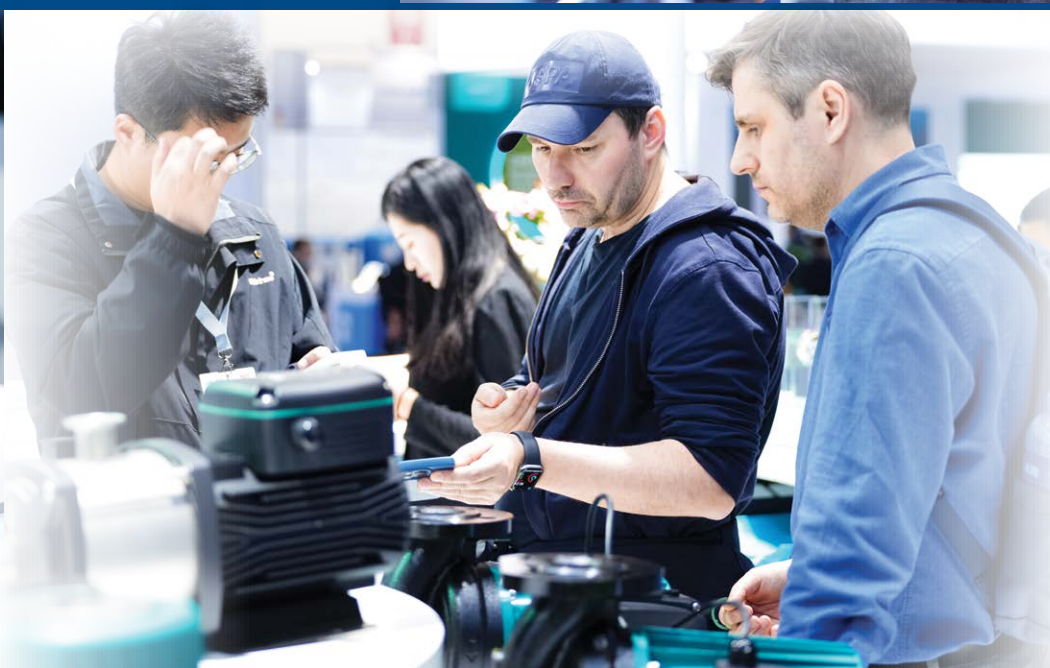

It also hosted around 500 face-to-face business matchmaking sessions between exhibitors and international buyers, connecting supply chain resources in China with overseas markets.

## Visitor business sectors

- Agents, distributors, wholesalers
- Solution integrators, installers, manufacturers
- Construction companies, contractors
- Importers, exporters, traders
- Architectural design academies, architects, interior designers
- Property developers, estate management companies
- Commercial end-users
- Schools
- Hospitals
- Hotels & entertainment facilities
- Urban renewal & ageing pipeline renewal
- Health and wellness facilities & age-friendly refurbishments
- Heating companies, combined heat & power (CHP) companies, power stations
- Agricultural & livestock heating end-users
- Manufacturing and industrial heat end-users
- Industrial park developers, managers & operators
- Government departments, trade associations
- Trade media, mass media, independent content creators
- Others

# Global vision, greater heights

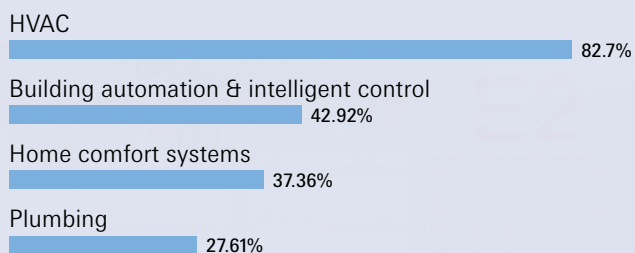

From Europe and North America to Asia-Pacific and the Middle East, ISH China & CIHE has spent over three decades connecting HVAC markets worldwide and has become a must-attend annual event for the industry.

## Visitors by expertise\*

## Visitors by area of interest\*

\*Data from 2026

## Opening doors to new business opportunities

ISH China & CIHE connects suppliers with buyers from across the market. In 2026, the show welcomed more than 100 professional buyer delegations from government, municipal construction, luxury residential design, healthcare logistics, and urban regeneration, creating new opportunities for exhibitor collaboration and sustainable growth.

### Visitor feedback

“ This international event hosts a broad range of suppliers, providing an ideal platform to network and showcase products. The successful partnership between Nepal and China would not have been possible without China’s technology, expertise, and investment. The exhibitors here presented Nepalese buyers with a diverse selection of Chinese technologies and innovations. I will definitely return for the next ISH China & CIHE. ”

**Ms Parbati Aryal, Minister (Economic), the Embassy of Nepal to China**

“ I was very impressed by the innovations and the Chinese companies I met. I came seeking high-quality products for the Pakistani market, such as heaters and connectors, and was pleased with the standards and attractive prices I found. I would be happy to return in the future. ”

**Mr M Faisal Aslam, Managing Partner, The Lahore Chamber of Commerce & Industry; General Manager, MS Aslam Sons Trading Company (Pakistan)**

“ Coming from a tropical country, my primary goal at this show is to meet new contacts and suppliers, particularly for high-quality pipes and air-conditioners, while gaining insight into China’s latest technological advancements. I am identifying technologies that we can bring back to our home market and have already made several valuable connections. I am thoroughly enjoying the experience and would be delighted to attend again next year. ”

**Ms Martínez Roque Alianet, Supply Chain Manager, Refclim Company (Cuba)**

## Association feedback

“ For three decades, this fair has followed the development of China's heating sector from traditional systems to today's energy efficient solutions. It remains not only a premier networking platform for HVAC professionals, but also a benchmark industry event for Asia and beyond. Organised by the CDHA under the theme 'Building a New-Type Heating System', our forum brought together industry leaders, technical experts and manufacturers for productive dialogue and exchange. These discussions provided attendees with the practical insights needed to advance both their own businesses and the wider HVAC sector.”

**Ms Liu Rong, Deputy Director-General, China District Heating Association (CDHA); Deputy Director, Heating Technology Specialised Committee**

“ The 2026 show was a great success, covering the entire industry supply chain: heat sources, transmission and distribution systems, and end-use applications such as heat pumps, new energy solutions, and radiators. We will continue to harness the exhibition's international standing to promote China's leading brands on the global stage.”

**Mr Wu Huimin, Deputy Secretary-General, China Construction Metal Structure Association**

“ As a key member of the global ISH network, ISH China & CIHE provides a gateway for China's heat pump industry to enter international markets and supports export growth. Its reputation ensured a substantial turnout of trade visitors and a productive networking environment. The forum discussions further encouraged collaboration, generating business opportunities and technical exchange that advanced the heat pump industry.”

**Mr Zhao Hengyi, Vice Chief Supervisor, China Energy Conservation Association; Executive Deputy Chairperson, China Heat Pump Alliance**

“ By bringing together leading companies, research institutes and industry leaders, the fair acts as a vital platform for aligning on key issues, exchanging cutting-edge technologies, and advancing industry standards. Moving forward, we will further leverage these product showcases and forums to encourage collaboration and the adoption of green technologies, ensuring the heating sector continues to advance toward greater efficiency, energy savings and low-carbon development.”

**Mr Cai Xiaofeng, General Manager, Shanghai Industrial Boiler Research Institute Co Ltd**

# Shaping the roadmap for the industry's future

In the 2026 edition, the ISH China & CIHE Zero-Carbon Heating Forum, co-organised with the China District Heating Association, focused on next-generation heating technologies, ranging from combined heat & power and heat pumps to cross-seasonal thermal storage. It gathered international experts to share industry knowledge, present breakthroughs, and discuss viable ways to implement low-carbon heating.

Additionally, over 60 forums and conferences took place, addressing key challenges and opportunities in the industry. Government officials, global diplomats, and experts convened to discuss zero-carbon heating, urban renewal, industrial and commercial heating, healthcare and wellness, hotel energy efficiency, energy management, and low-carbon transformation.

## Speaker feedback

“ ISH China & CIHE has created an excellent platform for participants to explore new products and share technical expertise. The fair's technical seminars effectively promote the growth of the heating industry, and I expect to see the show continue to drive the energy transition across China's heating sector.”

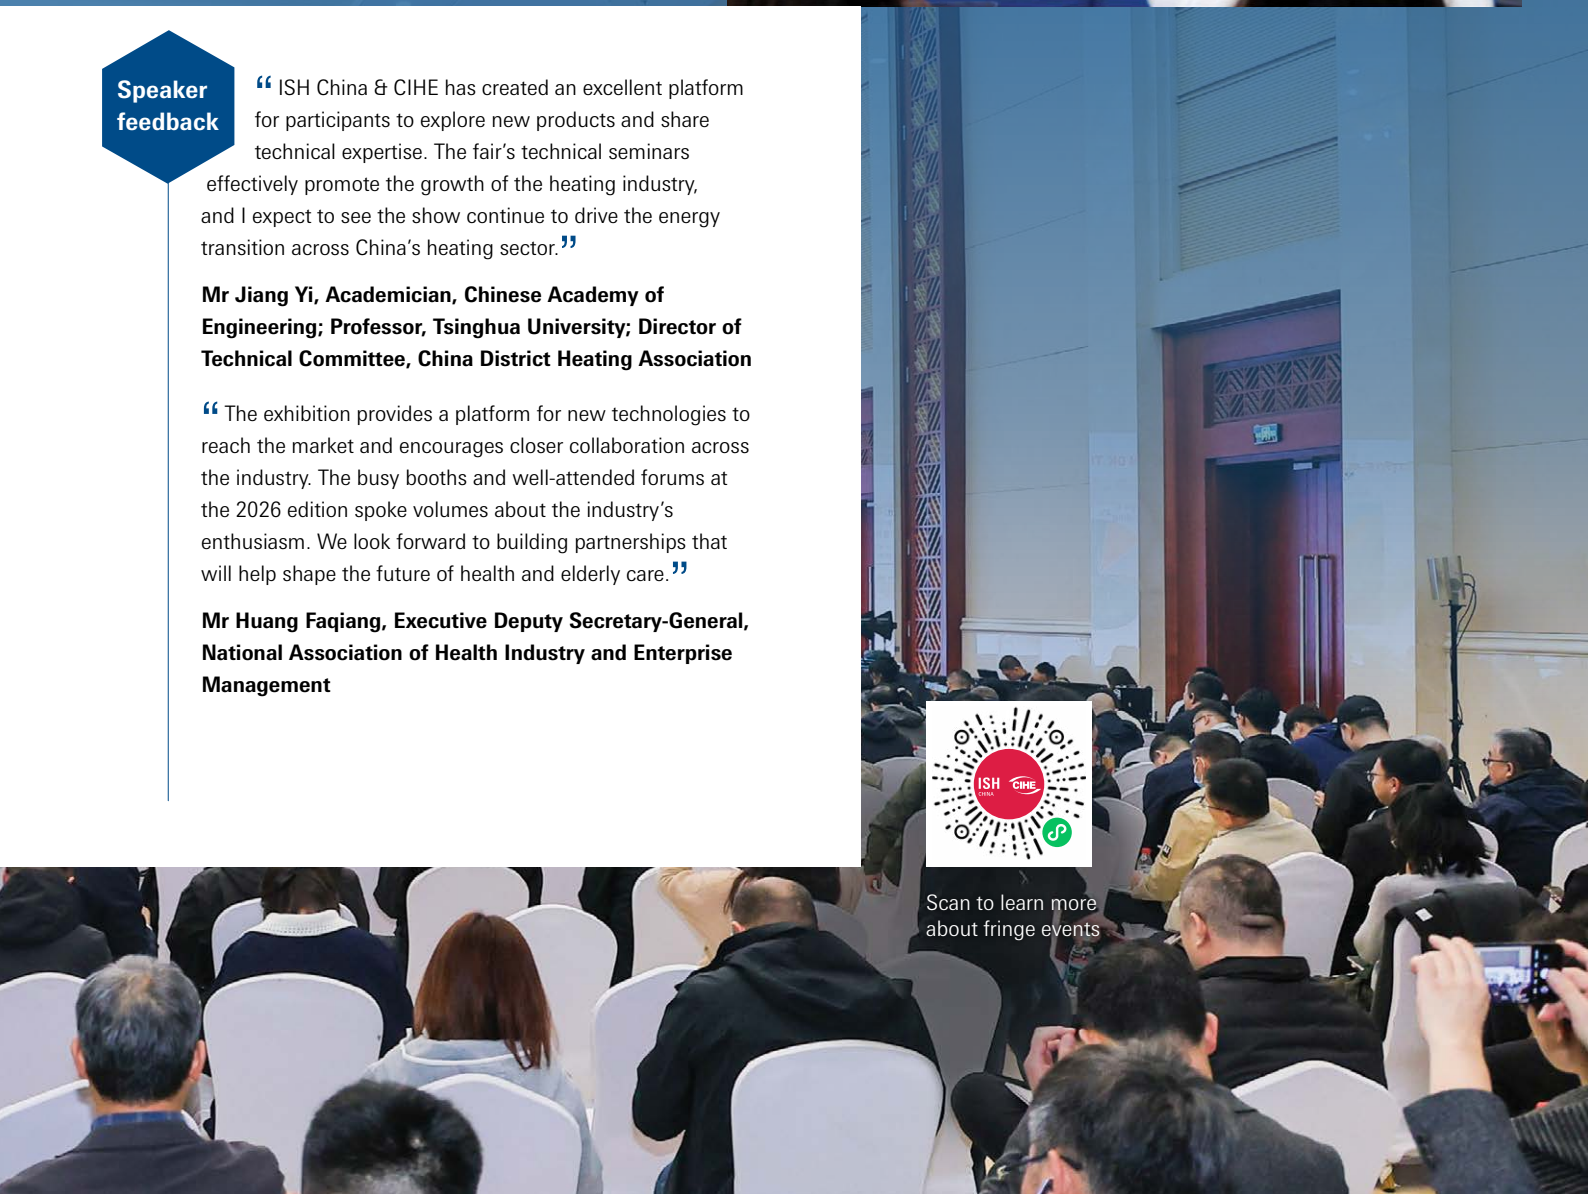

**Mr Jiang Yi, Academician, Chinese Academy of Engineering; Professor, Tsinghua University; Director of Technical Committee, China District Heating Association**

“ The exhibition provides a platform for new technologies to reach the market and encourages closer collaboration across the industry. The busy booths and well-attended forums at the 2026 edition spoke volumes about the industry's enthusiasm. We look forward to building partnerships that will help shape the future of health and elderly care.”

**Mr Huang Faqiang, Executive Deputy Secretary-General, National Association of Health Industry and Enterprise Management**
